

Martin Co., Line to Lake Worth Inlet and from South Lake Worth Inlet to Broward, General Design Plan, Implementation, Martin and Broward Counties, FL.

Summary: EPA expressed environmental concerns regarding the long-term consequences of how this action meshes with other, similar beach nourishment projects planned for the county's shoreline. EPA was particularly concerned over impacts to nearshore hardbottom habitat.

Dated: April 11, 1995.

B. Katherine Biggs,

Associate Director, NEPA Compliance Division, Office of Federal Activities.

Science Advisory Board; Clean Air Act Scientific Advisory Committee; Notification of Public Advisory Committee Meeting(s); Open Meeting

Pursuant to the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that the Clean Air Scientific Advisory Committee (CASAC) of the Science Advisory Board (SAB) will meet on May 4-5, 1995 at the Courtyard Marriott, 2700 Eisenhower Avenue, Alexandria, Virginia 22314; telephone (703) 329-2323. The meeting will begin at 9 a.m. and end no later than 5 p.m. on both days. This meeting is open to the public. Due to limited space, seating will be on a first-come basis. For further information, please contact the individuals listed below. Documents that are the subject of SAB reviews are normally available from the originating EPA office and are not available from the SAB Office.

This meeting of the Clean Air Scientific Advisory Committee (CASAC) will focus on reviewing the scientific and technical adequacy of the agency's "Health Assessment Document for Diesel Emissions" (a document from the Office of Research and Development, Office of Health and Environmental Assessment (OHEA), Environmental Criteria and Assessment Office in Research, Triangle Park, NC—ECAO). The specific issues to be addressed during the CASAC review are as follows:

1. Does the document accurately represent the key literature on diesel emissions?

2. Are the cancer and noncancer hazard identification and dose-response assessments scientifically appropriate? In particular:

(a) Is the application of dosimetry modeling scientifically sound?

(b) Are the modes of action appropriately identified and applied to the health assessment?

(c) Are the qualitative and quantitative cancer risk estimates scientifically appropriate?

(d) Is the diesel inhalation reference concentration (RfC) scientifically appropriate?

3. Is it possible to improve the diesel risk characterization in the document, given the inadequate exposure information to compare to the quantitative health assessment?

For example, will further/alternative interpretations of the health effects information advance the risk characterization?

Availability of Documents

Single copies of the U.S. EPA health assessment document may be obtained from the Office of Research and Development Publications Center, CERI-FRN, U.S. Environmental Protection Agency, 26 West Martin Luther King Drive, Cincinnati, Ohio 45268; Telephone: (513) 569-7562; FAX (513) 684-7566. Please provide your name, mailing address and the EPA document numbers EPA/600/8-90/057Ba and Bb.

Members of the public desiring additional information about the meeting, including an agenda, should contact Randall Bond, Designated Federal Official, Clean Air Scientific Advisory Committee, Science Advisory Board (1400), US EPA, 401 M Street, SW, Washington DC 20460, by telephone at (202) 260-8414, FAX (202) 260-1889, or via The INTERNET at: Bond.Randall@EPAMAIL.EPA.GOV. Those individuals requiring a copy of the draft Agenda and the charge to the committee should contact Ms. Lori Anne Gross at (202) 260-8414 or by FAX at (202) 260-1889 or via the INTERNET at GROSS.LORI@EPAMAIL.EPA.GOV. Additional information concerning the Science Advisory Board, its structure, function, and composition, may be found in The Annual Report of the Staff Director which is available by contacting Ms. Gross at the previously stated address.

Members of the public wishing to make an oral presentation at the meeting should contact Mr. Bond no later than noon, Wednesday, April 26, 1995. The request should identify the name of the individual who will make the presentation, requirements for audio visual equipment (e.g., overhead projector, 35mm projector, chalk board, etc), and an outline of the issues to be addressed. At least 35 copies of the presentation and 35 copies of the visual aids used at the meeting are to be given to Mr. Bond no later than the time of the presentation for distribution to the Committee and the interested public. See below for additional information on providing comments to the SAB.

Providing Oral or Written Comments at SAB Meetings

The Science Advisory Board expects that public statements presented at its meetings will not be repetitive of previously submitted oral or written statements. In general, each individual or group making an oral presentation will be limited to a total time of ten minutes. Written comments (at least 35 copies) received in the SAB Staff Office sufficiently prior to a meeting date, may be mailed to the relevant SAB committee or subcommittee prior to its meeting; comments received too close to the meeting date will normally be provided to the committee at its meeting. Written comments may be provided to the relevant committee or subcommittee up until the time of the meeting.

Dated: April 6, 1995.
Donald G. Barnes,
Staff Director, Science Advisory Board.

Public Water System Supervision Program Revision for the State of Wisconsin

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: Notice is hereby given in accordance with the provision of § 1413 of the Safe Drinking Water Act, as amended, 42 U.S.C. 300f et seq., and 40 CFR part 142, subpart B, the National Primary Drinking Water Regulations (NPDWR), that the State of Wisconsin is revising its approved Public Water System Supervision (PWSS) primacy program. The Wisconsin Department of Natural Resources (WDNR) adopted drinking water regulations for 18 synthetic organic chemicals (SOCs), and 5 inorganic chemicals (IOCs), that correspond to the NPDWR for SOCs and IOCs, promulgated by the U.S. Environmental Protection Agency (U.S. EPA) on July 17, 1992 (57 FR 31776-31849). The U.S. EPA has completed its review of Wisconsin's PWSS primacy program revision and has determined that the State program revision is no less stringent than the corresponding Federal regulations.

The U.S. EPA has determined that the Wisconsin rule revision meets the requirements of the Federal rule. Therefore, the U.S. EPA is proposing to approve the WDNR's rule revision. All interested parties are invited to submit written comments on this proposed

determination, and may request a public hearing on or before May 15, 1995. If a public hearing is requested and granted, the determination shall not become effective until such time following the hearing, at which the Regional Administrator issues an order affirming or rescinding this action. Frivolous or insubstantial requests for a hearing may be denied by the Regional Administrator.

Requests for public hearing should be addressed to: Miguel A. Del Toral, (WD-17J), U.S. Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604.

Any request for a public hearing shall include the following: (1) The name, address, and telephone number of the individual, organization, or other entity requesting a hearing. (2) A brief statement of the requesting person's interest in the Regional Administrator's determinations and of information that the requesting person intends to submit at such hearing. (3) The signature of the individual making the request; or, if the request is made on behalf of an organization or other entity, the signature of a responsible official of the organization or other entity.

Notice of any hearing shall be given not less than fifteen (15) days prior to the time scheduled for the hearing. Such notice will be made by the Regional Administrator in the Federal Register and in newspapers of general circulation in the State of Wisconsin. A notice will be sent to the person(s) requesting the hearing as well as to the State of Wisconsin. The hearing notice will include a statement of purpose, information regarding the time and location, and the address and telephone number where interested persons may obtain further information. The Regional Administrator will issue an order affirming or rescinding his determination upon review of the hearing record. Should the determination be affirmed, it will become effective as of the date of the order.

Should no timely and appropriate request for a hearing be received, and should the Regional Administrator not elect to hold a hearing on his own motion, these determinations shall become effective on May 15, 1995. Please bring this notice to the attention of any persons known by you to have an interest in these determinations.

All documents related to these determinations are available for inspection between the hours of 8:30 a.m. and 4:30 p.m., Monday through Friday, at the following offices: Wisconsin Department of Natural Resources, Bureau of Water Supply,
